[LMA](#)

Managed by Devpost ⓘ

[Blockchain Fintech Machine Learning/AI](#)

The Loan Market Association is the authoritative voice of the loan markets across Europe, the Middle East and Africa. Our mission is to advance liquidity, efficiency, transparency and sustainability. The LMA Edge Hackathon invites a diverse mix of participants, from loan markets novice to subject matter expert, from fledgeling web developer to technology wizard, to reimagine how loans are originated, documented, traded and managed.

This hackathon is a call to build commercially viable, desktop-based prototypes, wireframes, or applications. The [LMA website](#) and our many [LinkedIn posts](#) can help you understand current practices, uncover pain points, and ideate bold solutions. With \$25,000 USD in prizes, we're looking for high-impact, scalable ideas that align with our values and our mission. If you're motivated to apply technical creativity and cross-disciplinary thinking to a multi-trillion dollar market, this is your moment to shine.

Get Started

- Register for the LMA Edge Hackathon.
- Join the [Devpost Discord](#) community to partner up with other participants.
- Review [category briefs](#) for inspiration.
- Brainstorm what you're going to create.

Requirements

What to Build

Build or update a desktop-based project that can include but not limited to prototype/wireframe that is commercially viable in one of the following categories (more info here):

- Digital Loans
- Loan Documents
- Transparent Loan Trading
- Keeping Loans on Track
- Greener Lending

Key Components of Commercial Viability that should be considered when building your project:

1. *Value proposition*
2. *Scalability potential*
3. *Potential efficiency gains*
4. *Potential Impact*

What to Submit

Keep in mind your audience: Judges are non-technical subject-matter experts from banks and financial institutions — present your solution clearly and commercially.

- Text description with features, target users, and tech used.
- Demo video (~3 minutes) demonstrating the working project (show key flows and business value).
- URL to a clickable prototype, wireframes, or web application.
- Optional: Pitch deck (concise, investor-style if possible).
- Optional: link to code repository.

Hackathon Sponsors

Prizes

\$25,000 in prizes

First Place

\$12,500 in cash
1 winner

\$12,500 USD in cash
Tickets, Airfare and Hotel to LMA Edge for up to two team members

Second Place

\$7,500 in cash
1 winner

Third Place

\$3,000 in cash
1 winner

Honourable Mentions

\$1,000 in cash
2 winners

Judging Criteria

- **Design**
Is the design of the project well thought out and will it be easy to use for potential users? Is the solution scalable?
- **Potential Impact**
Does the project demonstrate a significant potential impact on the Lending Industry? Does the solution create efficiency gains, mitigate risk, or drive industry-wide standardization?
- **Quality of the Idea**
Is the project unique or does it significantly improve upon existing solutions? If so, how much does the project improve on it?
- **Market Opportunity**
Is there a clear value proposition? Is the solution tailored for a defined market?
